- 5. Once a student has been identified as making unsatisfactory course progress, the Training Manager will issue the student with a Course Progress Warning Letter.
- 6. A Course Progress Warning Letter will require the student to meet with the Training Manager or Principal, to discuss their course progress, and if necessary, activate an Intervention Strategy Plan (ISP).

12. Intervention Agreement process

Once a meeting with the student has been established. An intervention agreement is to be created.

It is important to follow the following

- Ensure to have realistic timelines for assessment resubmission
- Students need to complete the COE term first before they can extend
- If a student has not completed more than 5% of a qualification after 3 terms, it can be recommended for the student to be moved into a term 1 class. Therefore, an extension can then be given when the student reaches their COE end date in order to complete the qualification.
- If a student demonstrates mental or health issues. The student can suspend their study, as long as they present a medical certificate

The ISP must outline, but not limited to:

- a. The reason and background of why the student is at risk or failed to maintain satisfactory course progress or satisfactory course attendance as well as requests for assistance with any learning or personal difficulties.
- b. The current course/academic progress including the identified problems (i.e., course attendance and/or course progress)
- c. The required/requested support (e.g., learning support library, or LLN).
- d. The conditions imposed to the student:
 - ➤ The scheduled review dates
 - > Timeframe of the plan
 - > The potential outcomes of the ISP
- 1. Students will receive a copy of the signed agreed intervention agreement, and a copy is saved against their student file
- 2. A follow-up review needs to be set, to ensure the student is demonstrating progress.
- 3. Failure to demonstrate progress will require a follow up with student and reminder on their intervention agreement.
- 4. If the student remains unsatisfactory, a second warning letter is to be issued, and the same process will be repeated.

- 2. The Intention to Report letter is formal notification to the student that ABM intends to report their non-compliance with their course attendance requirements and/or unsatisfactory academic progress, to the Department of Home Affairs.
- 3. Students who maintain unsatisfactory progress after two (2) consecutive warning letters will receive an Intention to Report Letter.
- 4. Where the student does not lodge an appeal within twenty (20) working days of the date of the Intention to Report Letter or where their appeal is rejected, the student will be reported to the Department of Home Affairs for their non-compliance with their course attendance requirements and/or their unsatisfactory academic progress.
- 5. In deciding whether to report or not report a student to the Department of Home Affairs, ABM will consider all evidence provided by the student in their response to the Intention to Report Letter, in particular, where a student provides evidence of compassionate or compelling circumstances that have impacted on a student's ability to attend class or undertake study.

 - (iii) has received an approved deferral or suspension of the student's enrolment
- 2. Where ABM extends the duration of the student's enrolment and the student's visa will expire prior to completion of the course, the student will be required to apply for a new student visa to complete the study.
